Appl. No. 09/472,762 Amdt. dated August 06, 2003 Reply to Office action of May 7, 2003

- Claim 5. (Original): A computer program product having a computer-readable 1 medium holding computer-executable instructions for performing a method for 2 3 managing personal documents, the method comprising: loading a document into storage, said document having a category; determining the document category; receiving at least one processing rule, wherein the rule is associated with the document category; and processing the document according to the processing rule. Claim 6. (Original): The computer program product of claim 5, wherein the processing rule includes retention criteria for determining how long to save the document. Claim 7. (Original): A method for transferring a computer program product from one or more first computers to a second computer connected to the one or more first computers through a communications medium, comprising: (a) accessing, on the one or more first computers, computer-executable instructions, which when executed by a computer, perform the steps of: (1) loading a document into storage, said document having a category; (2) receiving at least one processing rule, wherein the rule is associated with the document category; and (3) processing the document according to the processing rule; and (b) transferring the computer-executable instructions from the one or more
- Claim 8. (Original): The method of claim 7, wherein the processing rule includes 1 2 retention criteria for determining how long to save the document.

first computers to the second computer through the communications medium.
